

We cordially invite you to attend the workshop

Science for Policy – Challenges and Opportunities

Powered by Estonian Research Council

Wednesday, 8 November at 12:30–17:00

followed by a **Networking Dinner**

at the Permanent Representation of Estonia to the EU,
Rue Guimard 11/13, 1040 Brussels

Challenges of the current poly-crisis landscape highlight the need for a holistic, adaptable, and evidence-informed approach to policymaking. By integrating interdisciplinary expertise, understanding policy needs, and effectively communicating scientific findings, policymakers can make informed decisions that address immediate crises and ensure a sustainable future. This approach not only helps solve complex problems but also plays a crucial role in rebuilding public trust in science, which is essential for effective problem-solving in today's world.

Due to the limited availability of seats, early registration is recommended to ensure your participation.

Please register before 1 November [HERE](#)

Entry upon the presentation of ID document.
