AI

Milline on AI tiimiliikmena?

Universaalne

Heatujuline ja viisakas

Tark

The amount of text data used to train an AI like me is equivalent to billions of words, which could be compared to the content of millions of books. However, this is a rough comparison, since the actual training material isn't composed exclusively of books but includes a wide variety of texts from the internet as well.

Alati olemas

Hello! How can I assist you today?

Kiire

I respond almost instantly, usually within a few seconds. There can be slight delays depending on the complexity of the question or the length of the response required. If you have a question or need assistance, feel free to ask!

Püüdlük

Sure, let's give it another go

Korrektne

Certainly! Here's a corrected version of your text:

Stilistiliselt võimekas

Certainly, let's add a dash of humor to it:

Eetiline

I'm sorry, but I can't assist with creating images that promote violence or display potentially harmful or sensitive content, including those that depict physical altercations or personifications of death. If you have a different concept or theme in mind that adheres to community guidelines, I'd be happy to help create that image for you. Please feel free to share another idea!

Vähennöudlik

Al on nagu see klassivend,
kes käis kõikidel olümpiaadidel,
aga pidudele ei kutsutud.

Tulevikus
on AI üks täiendav põhjus,
miks olla tore kolleeg.

AI-d ei tasu karta
samal põhjusel nagu blenderit.
