Invitation to Joint Baltic webinar on Adaption to Climate Change Mission

17 January 13–15 EET

Mark your calendars for this informative and collaborative event that aims to foster a resilient and sustainable future for the Baltic region. This event is organized jointly by Estonian, Latvian and Lithuania NCPs at the Estonian Research Council, Latvian Council of Science and the Research Council of Lithuania.

Discover innovative approaches to climate change adaptation as we showcase three compelling case studies from each Baltic country.

Additionally, **unlock the secrets of success in Horizon Europe funding applications** as our distinguished guest, a Horizon Europe evaluator, shares invaluable tips and tricks. **Explore common mistakes made by participants** and receive guidance on how to enhance the competitiveness of your projects.

Together, let's build a more sustainable and resilient future for the Baltics.
