## Bridgehead Programme

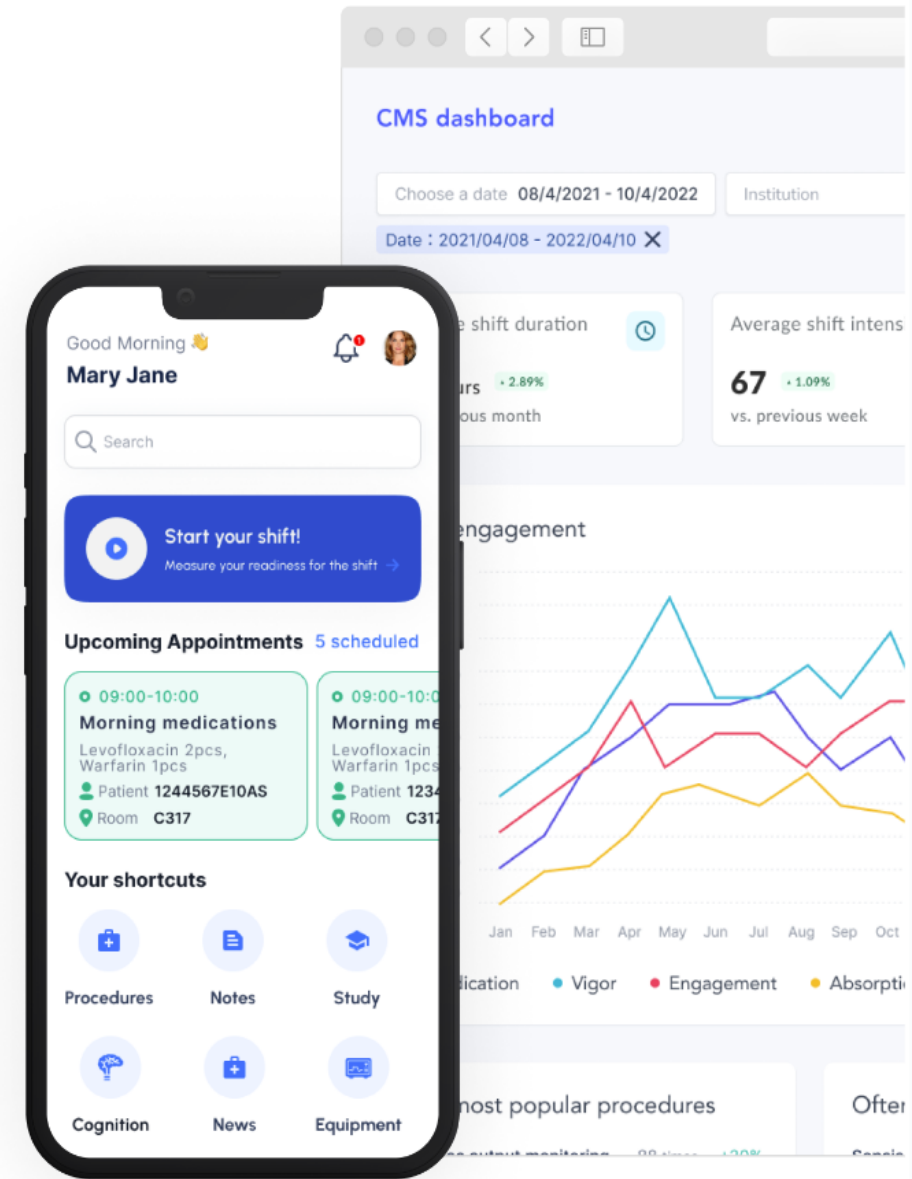

SpeakTX fördert das eigenständige Lernen durch interaktive Übungen, die ansprechend und motivierend sind. Übung macht den Sprachtherapie-Meister und Lernende kommen effektiver und schneller zu Ergebnissen.

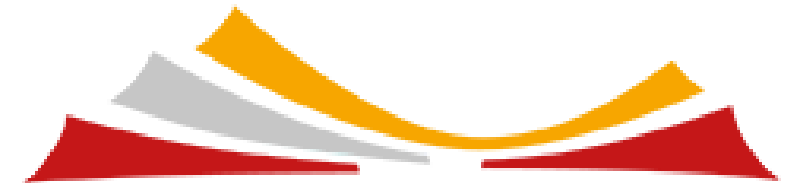

# CoNurse

- **Home Care:** Provides personalized, voice-guided post-discharge care protocols to patients and their caregivers, improving treatment adherence and reducing readmissions through ePROs collection.
- **Hospitals:** Enhances patient safety and clinical workflow efficiency by providing evidence-based step-by-step nursing protocols, significantly reducing preventable adverse events. CoNurse helps streamline the onboarding process, making it more time and cost-efficient, and offers support for recalling critical and infrequent procedures, thus boosting overall staff confidence and competence.
- **Burnout / stress / job engagement support** - features for early detection and monitoring nurse burnout and stress levels, providing healthcare departments and institutions with valuable data on staff wellbeing.
- **Nursing Schools:** Empowers junior nurses with a digital learning tool, offering evidence-based guidance and improved knowledge retention to promote best practices in nursing care.
- **Medical Devices:** Offers a comprehensive solution for medical device management, ensuring correct usage and maintenance through detailed device descriptions, cleaning instructions, and audit tools.
