# INNOVATION Calls

## *ACCELERATING CHANGE TOWARDS SUSTAINABLE MOBILITY FOR CITIES*

- ✓ Respond to pressing urban mobility challenges
- ✓ Focus on the later stages of solution development, including piloting and market deployment preparation
- ✓ Empower SMEs & startups to scale and commercialise innovative mobility solutions together with cities and industry

# INNOVATION Calls

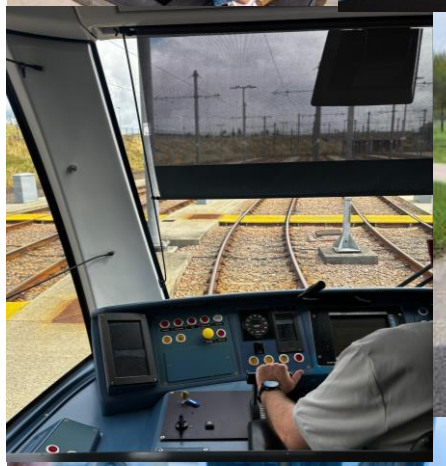
## *WHAT WE HAVE DONE SO FAR*

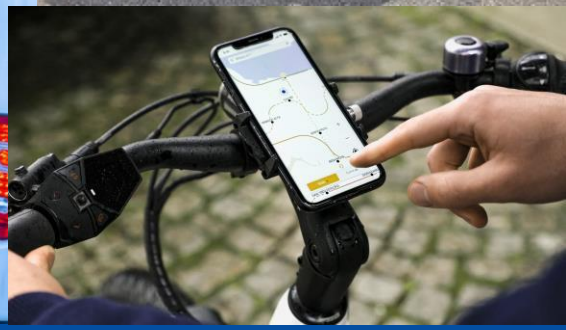
**139** consortia-led projects

**98** pilots (RAPTOR and SME)

**+435** entities involved

**+67M€** in EIT funding





# RAPTOR and SME Market Expansion Open Calls

**Main aspects to consider:**

- **SME Market Expansion Call:** Supports the supply of urban mobility innovations by helping SMEs test, improve, and commercialise solutions with real-world end-client validation (min. TRL 7)
- **City RAPTOR:** Addresses the demand for urban mobility solutions by rapidly developing and piloting innovations that solve city-defined challenges through direct collaboration with cities

**Consortium:** Mono beneficiary – for startups and SMEs from EU Member States or associated countries to HE

**Mandatory elements**: KPIs EITHE2.4 (marketed innovation); and contribution to EIT Urban Mobility Financial Sustainability Mechanism (FSM).

**Start dates:** *Tentative*

- **SME ME Call**: October 2025
  **City RAPTOR**: January 2026

**Project duration**:

- **SME ME Call**: 7 months
- **City RAPTOR**: 5 months

**Budget**:

- **SME ME Call**: up to 892.500€
- **City RAPTOR**: up to 600.000€

# INNOVATION Open Call 2026

***Tentative***
***Launch date: June 2025***
***Deadline: September 2025***

**Main aspects to consider:** Seeking new innovations that tackle the **most pressing urban mobility challenges**. Solutions should demonstrate **strong potential for scalability and market adoption**. Projects should foster **collaborative innovation** – whether across the value chain or other strategic partnerships- with **a clear pathway to market deployment** by the project's end.

**Consortium**: Minimum of 2 partners from 2 different EU Member States or associated countries to HE.

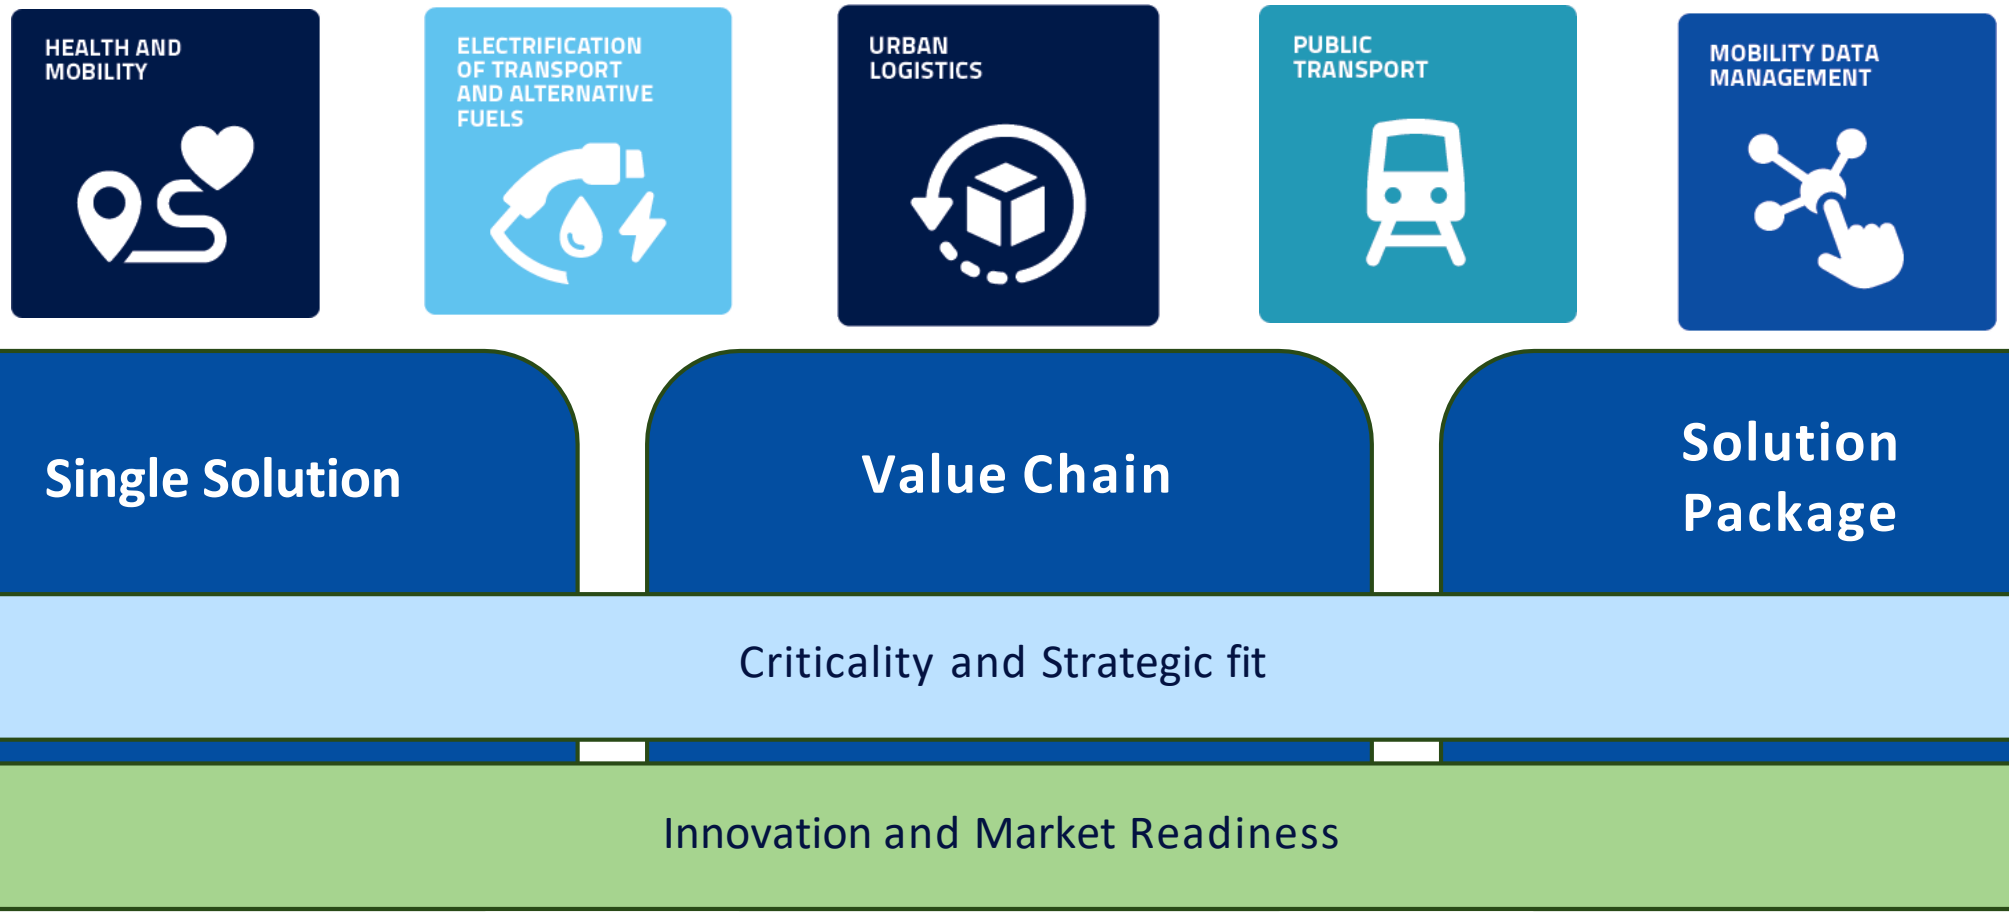
**Mandatory elements**: KPIs EITHE2.4 (marketed innovation) or EITHE4.4 (startup created); minimum 35% co-funding and contribution to EIT Urban Mobility Financial Sustainability Mechanism (FSM).

**Start date**: Jan-Feb 2026

**Project duration**: up to 24 months

**Budget**: up to 1M€ per year

# Prioritising high impact projects and markets



# UT R&D Teams

## Mobility Lab

- spatial mobility analyses, mobile big data & methods
- transportation planning, access to cities' services

## Autonomous Driving Lab

- localization, route planning, safety (object detection)
- artificial neural networks, human-vehicle interaction
- city pilots for autonomous on-demand transportation

## Intelligent Transportation Systems Lab

- Spatio-temporal data analytics, mobility modeling, applied machine learning
- intelligent transportation systems, location-based services, and data mining
